

Add a Mask

In Objects and Animation, a Mask can be added in several ways:

- Click on the “M” Icon in the Tool bar
- Right Click in a Blank Space and choose “Add” and then “Mask”

There are three options:

- Add a Mask Template
- Add an Image/Video Mask
- Add a Blank Mask

Whichever is chosen, remember that **“White reveals and Black Conceals”**

Mask Template

A further two options are offered:

- The default sizes are shown

- The “Size in Pixels”, “Width of Blur” and “Corner Radius” can be changed by using the slider or by direct input via keyboard

- Click OK to create the Mask - Note the "Mask Stencil":

- Add an Image to the "Mask Content" and adjust its position and Size:

- Add an Image beneath the Mask Container and adjust its position and size:
- N.B. A Modifier has been added to the Image in the Mask Content to produce the Sepia Effect

Blank Mask

- A Blank Mask is created in the Object Panel:

- Right click on the “Mask Stencil” to add a Rectangle or a Pre-Prepared Image as a Mask
- A rectangle will be added at the size of the Mask Container and will automatically be White
