

# The Tools Menu

\* This menu is accessed via the "Tools" button at the bottom of the Objects and Animation Editor screen.

- Two new options were provided from Version 9 onwards
- Show Global Times of Key Frames :
  - When ticked shows the Key Frame times from the beginning of the project.
  - When un-ticked, Key Frame times are show from the beginning of the slide
- Key Frame Width :
  - This enables the width/thickness of Key Frames to be adjusted.
