[cucu test](#)

WnSoft is the leader on the market for software for the creation of professional photo slideshows and audiovisual shows. WnSoft products are used by photographers and AV enthusiasts in the United Kingdom, France, and other countries.

At the heart of our success is the ceaseless improvement and fine-tuning of PicturesToExe, which now has all of the features to make both simple slideshows and complicated audiovisual pieces. A large community of enthusiasts has formed around PicturesToExe, participating in discussion and testing of new versions of the program.
